

Electra Mining 2018 will once again see Astore Keymak a member of the Hudaco Group and a leading supplier of the most comprehensive range of thermoplastic pipe fittings, valves and pipeline accessories in all recognised materials as well as plastic welding equipment showcase its range of high quality products suited for a variety of industries utilising pressured pipe systems.

According to Managing Director of ASTORE KEYMAK (Pranesh Maniraj), “operating in a resilient market, Astore Keymak understand the importance of constantly keeping abreast of the latest trends in product innovation and technology to ensure our product offerings are in alignment with the market needs”.

While the focus for Electra Mining will be on the distinct product ranges comprising high quality pipes, fittings, semi-finished products, compression fittings, saddles, valves as well as irrigation hoses and accessories, Astore will also be engaging in a few on stand interactive demonstrations including butt welding, socket fusion and electrofusion. This will afford visitors the opportunity to understand the process behind jointing methods which is pivotal to the long-term success of a pipeline solution.

Exhibiting at Electra Mining is one of the platforms that allow ASTORE KEYMAK to engage with long-standing partners in showcasing the wide range of high quality products that is available to the end-user. Electra Mining 2018 will be earmarked by significant milestones for two of the company’s partners.

AGRU, Astore’s largest international manufacturer/supplier of Thermoplastic Pipes and Fittings will be showcasing their large variety of PVC pipes, pipe fittings and Semi Finished products. FIP another of Astore’s strategic partners and leading manufacturer/supplier of Industrial Thermoplastic valves will be showcasing their most comprehensive and extensive range of valves to date. During the exhibition, stand visitors can expect to engage with product and technical experts who will be in a position to discuss the significant benefits, features and applications of the products.

Mr Maniraj further added “having been in business for over 30 years Astore Keymak, prides itself in being well-positioned with the necessary skills, technical expertise, partnerships and products to deliver a high quality sustainable solution to our clients. We are always eager and committed to participating in industry events like Electra Mining to ensure we are maximising the opportunities that exist to grow our company and the industry”.
